Sustainable Horticulture, Volume 2: Food, Health, and Nutrition

Editors: Debasis Mandal, PhD
Amritesh C. Shukla, DPhil, DSc
Mohammed Wasim Siddiqui, PhD

In production
Pub Date: Feb, 2018
Hardback Price: $159.95 US
Hard ISBN: 9781771886475
Pages: Approx 350p w/Index
Binding Type: hardback
Series: Innovations in Horticultural Science
Notes: 33 color and 32 b/w illustrations

Sustainable Horticulture, Volume 2: Food, Health, and Nutrition addresses some of the most important topics facing horticulture around the world today. This volume, part of the two-volume compendium, focuses on research trends in sustainable horticulture that include postharvest management and processed food production from horticulture crops, crop protection and plant health management, and horticulture for human health and nutrition.

Global food demand is expected to be double by 2050, while at the same time the production environment and natural resources are continually shrinking and deteriorating due to many complex factors. Horticulture, a major sector of agriculture, is vital to enhancing crop production and productivity in parity with agricultural crops to meet the emerging food demand. Implementing sustainable models of crop production is really an enormous endeavor. Promising technologies and management options are needed to increase productivity to meet the growing food demand despite deteriorating production environments.

The book is divided into sections covering:
- Postharvest Management and Processed Food
- Protection of Horticulture Crops
- Horticulture for Health and Nutrition

Together with volume 1 (Volume 1: Diversity, Production, and Crop Improvement), this two-volume compendium presents an abundance of new research on sustainable horticulture that will be valuable for a broad audience, including students of horticulture, faculty and instructors, scientists, agriculturists, government and nongovernmental organizations, and other industry professionals.

Contents:
Preface

Part I: Postharvest Management and Processed Food
1. Emerging Fruit Juice Processing Technologies: Quality Improvement
Chandan Somasundaram, Zuliana Razali, and Vicknesha Santhirasegaram

2. Development of Post Harvest Processing Technology for Ginger, Turmeric and Chili in Mizoram
Pradip K. Chatterjee, and George Szednicki

Amritesh C. Shukla

4. Osmotic Dehydration of Mango Varieties Alphonso and Totapuri

Follow us for the latest from Apple Academic Press:
AAP Editors Wins Award
Apple Academic Press, Inc., is proud to announce that Dr. Arvind K. Birdie has been honored with the Prof. Mrs. Manju Thakur Memorial Award 2016 for Innovative Contributions in Research/Test Construction/Book Publication for her book Organizational Behavior and Virtual Work: Concepts and Analytical Approaches. The award was presented during the 52nd National and 21st International Conference of the Indian Academy of Applied Psychology, held at the Department of Psychology, University of Rajasthan, Jaipur, February 23rd-25th, 2017. Our congratulations to Dr. Birdie!

Information about the book can be found here

Strategic Winery Tourism and Management Wins Gourmand Award

Apple Academic Press is delighted to announce that the Gourmand Awards jury has announced Strategic Winery Tourism and Management is the national book winner in its category: Best Wine Book Professionals. “This academic book structures clearly the concepts and practice of wine tourism, studying all aspects in a very broad overview. It is useful for planning and action,” says Edouard Cointreau, President of the Jury, Gourmand World Cookbook Awards. Read More…

J. Lenka and R. B. Tiwari
5. Breadnut: Innovative Products for the Agro Food Sector
5. Subramaniam, N. Ramburn, and R. Chacory
Preeti Singh, Neelima Garg, and Sanjiv Kumar
7. Development of Blended Aonla Squash
Neelima Garg, Sanjay Kumar, Preeti Singh, and Kaushlesh K. Yadav
8. Saccharomyces cerevisiae Postharvest Dip Treatment for Improving Quality and Storability of Mango (Mangifera indica cv. Dashehari)
Bharati Killadi, Neelima Garg, Rekha Chaurasiya, Kaushlesh K. Yadav, and D. K. Shukla
9. Postharvest Quality Evaluation of Winter Annuals
Sellam Perinban, Babita Singh, Jayoti Majumder, and Puja Rai
10. Optimizing the Shelf Life of Whole and Fresh Cut Breadfruit in Mauritius
Roop Soodha Munbodh
11. Standardization of Dehydration Techniques of Some Ornamental Foliages
Moumita Malakar, Sukanta Biswas, and Pinaki Acharyya
12. Dependence on Non-Timber Forest Products from Community Forest as a Safety Net for Livelihood Security Among the Villagers of Mamit District, Mizoram
K. Lalmimisangi and U. K. Sahoo
13. Effects of Black Rot on the Antioxidant Properties of Morris and Sarawak Pineapple (Ananas comosus)
Hasvinder Kaur Baldev Singh, Vicknesha Santhirasegaram, Zuliana Razali, and Chandran Somasundaram

PART II: PROTECTION OF HORTICULTURE CROPS
14. Essential Oils as Green Pesticides for Plant Protection in Horticulture
Murray B. Isman and Rita Seffrin
15. Integrated Health Management in Horticultural Crops
Ajanta Birah and C. Chattopadhyay
16. Technology for Diagnosis of Plant Viruses in Horticultural Crops in India
Bikash Mandal
Biplab Tudu and Sibdas Baskey
18. Evaluation of Some Plant Extracts Against Early Blight of Tomato Under Net House Condition
19. Bio-Efficacy of Eco-Friendly Pesticides on the Management of Spodoptera litura (Fab.) on Cabbage
R. Mandi and A. Pramanik
20. Foliose Lichen Species: A Potential Source for Bio-Control Agent Against Colletotrichum capsici
M. Chinniamplangi, A. C. Shukla, A. R. Logesh, and D. K. Upreti
21. Fungal Diseases of Medicinal and Aromatic Plants and Their Biological Management
Ramesh S. Yadav and Amritesh C. Shukla

PART III: HORTICULTURE FOR HEALTH AND NUTRITION
22. Broad Spectrum of Indian Peppermint Oil Against Disease Causing Human Bacterial Pathogens
Aawadhesh Kumar, Amritesh C. Shukla, and Anupam Dikshit
23. Underexploited Vegetables in North Eastern India: A Gateway to Food Security
B. Lalramhlimi, Akoijam Ranjita Devi, and Khaidem Nirja
24. Essential Oil of Thymus saturejoides Coss. in the High Atlas of Morocco: From Traditional Medicine to Community Natural Product Development
Bernaadette Montanari and Amritesh C. Shukla
25. Potent Nutritional and Ethnomedical Flora from North Central Terai Forests of U.P. India
S. C. Tripathi and T. P. Mall
26. Elemental Determination of Two Medicinal Plants of Mizoram Using EDXRF
R. Lawmzuati, K. Birla Singh, and N. Mohondas Singh

Mohammed Wasim Siddiqui, PhD
Assistant Professor and Scientist. Department of Food Science and Post-Harvest Technology, Bihar Agricultural University, Sabour, India

Mohammed Wasim Siddiqui, PhD, is an Assistant Professor and Scientist in the Department of Food Science and Post-Harvest Technology, Bihar Agricultural University. He has more than 20 years of experience in the field of food science and technology. He has received several grants and respected awards for his research work and has published numerous research papers and books on various research projects. He has visited many countries for his work, including Australia, Germany, China, and USA.

Dr. Siddiqui has received several grants and respected awards for his research work by a number of organizations. He is an active member of the organizing committees of several national and international seminars, conferences, and summits.

Chief, Agricultural and Biomedical Engineering

"I have published more than two hundred and thirty articles and thirteen book chapters and monographs in my life. Publishing with Apple Academic Press has been by far my very best experience. AAP is extremely cordial at every state of book processing, highly professional in maintaining the quality and meeting the deadlines. I wholeheartedly recommend anyone to consider publishing with AAP." – Benjaram M. Reddy, Chief Scientist & Head, CSIR - Indian Institute of Chemical Technology, Hyderabad

"I received the printed copies of the book and it has come out very well. It has been a great experience working with the team!" – Vinnie Jauhari, PhD, Director, Institute for International Management and Technology, Oxford Brookes University
