- postgraduate vascular surgery View project
Featuring up-to-date information on current topics in vascular surgery, the second edition of Postgraduate Vascular Surgery is aimed at surgical trainees to help them prepare for the FRCS intercollegiate and Board exams. With chapters written by experts in their respective fields, the book contains concise information on surgical procedures, diagnosis and management of vascular conditions. Each section includes bullet point summaries, relevant clinical trials, and references for further research, making it the ideal resource for study. This book will also help candidates preparing for the European and Australian board exams. Practicing surgeons will also find this title useful for updating their knowledge.

**Readership:** Postgraduate trainees in vascular surgery.
Contents

• **Final FRCS Vascular:**
  - Introduction to The Examination and Clinical Cases (James Mccaslin, Jonathan Smout and Asif Mahmood)
