Title: Experimental Study of the Protuberance Effect on the Blade Performance of a Small Horizontal Axis Wind Turbine
Journal of Wind Engineering & Industrial Aerodynamics

Dear Prof. Yui-Chuin Shiah,

I am pleased to confirm that your paper "Experimental Study of the Protuberance Effect on the Blade Performance of a Small Horizontal Axis Wind Turbine" has been accepted for publication in Journal of Wind Engineering & Industrial Aerodynamics.

Now that the review process is complete, the publication process begins. Elsevier will contact you soon for any questions during the publication process. After you receive an acknowledgement e-mail from Elsevier you can track your paper from http://authors.elsevier.com/TrackPaper.html.

Comments from the Editor and Reviewers, if any, can be found below.

When your paper is published on ScienceDirect, you want to make sure it gets the attention it deserves. To help you get your message across, Elsevier has developed a new, free service called AudioSlides: brief, webcast-style presentations that are shown (publicly available) next to your published article. This format gives you the opportunity to explain your research in your own words and attract interest. You will receive an invitation email to create an AudioSlides presentation shortly. For more information and examples, please visit http://www.elsevier.com/audioslides.

Thank you for your contribution in submitting your work to this journal%.

With kind regards
