Dear authors,

Your revised manuscript (#4097) has been accepted and will be edited and formatted for publication. There is a backlog of papers we are currently working through, so you can expect your proofs in late November or early December. It will be published shortly thereafter.

There is an $800 publication fee. You will receive an invoice for this fee when you receive your proofs. The invoice and proofs will be coming from Oxford University Press, who we have recently partnered with.

Thank you for your support of JIS. Please let me know if you have any questions. We look forward to publishing your paper.

 Regards,
Joshua Lancette
