Ref.: Ms. No. ESJO-O-15-01475R1
Is there an optimal Upper Instrumented Vertebra (UIV) tilt angle to prevent post-operative shoulder imbalance and neck tilt in Lenke 1 and 2 Adolescent Idiopathic Scoliosis (AIS) patients?
European Spine Journal

Dear Dr. Chan,

After a thorough review of your above mentioned manuscript, we are pleased to inform you that it has been accepted for publication in the European Spine Journal.

The manuscript will now be forwarded to the publisher, from whom you will shortly receive information regarding the correction of proofs and fast online publication.

Publication of Case Reports: Case Reports will be published online only within online supplements to the journal, twice a year. The bibliographic data of the case reports will be published in the printed issue of the journal coinciding with the publication of the online supplement.

Should you have any questions regarding publication of your paper, please contact the responsible production editor, Mrs. Karin Quintes at Karin.Quintes@springer.com

Sincerely,

Claudio Lamartina
Editor
