Webinar Initiative: Centre for Research in International and Comparative Education (CRICE) is going virtual.

With the Covid-19 pandemic still around, CRICE has decided to go online. It is quite challenging and exciting, as we had to start from scratch, understanding the Microsoft Teams and how it operates.

By Vishalache Balakrishnan

CRICE 1st Webinar went life on 11 June 2020. It was a seminar given by Professor Dato’ Dr. Christopher Boey Chiong Meng titled Education for Global Citizenship. There were 144 attendees and questions came from as far as Japan and India during the question and answer session.

It was a transformative initiative and takes CRICE to the next level of disseminating knowledge at the international era. A big thank you to Mr. Muhammad Aminudin Razali and team from Pusat Teknologi Maklumat (PTM), Universiti Malaya for their enormous support in making this webinar a success.
