Title: Cloning, expression and characterization of endoglucanase gene from Bacillus subtilis UMC7 isolated from gut of indigenous termite (Macrotermes malaccensis) in E. coli

Dear Dr Teoh,

It is a pleasure to inform that the manuscript entitled “Cloning, expression and characterization of the endoglucanase gene from Bacillus subtilis UMC7 isolated from the gut of the indigenous termite Macrotermes malaccensis in E. coli”, authored by Chuan Wei Kelvin Swee, Teow Chong Teoh, Philip Koshy, Ismail Salmah and Arifin Zainudin, has been accepted for publication in Electronic Journal of Biotechnology.

We would greatly appreciate receiving the Copyright Transfer Agreement corresponding to your manuscript, which you can find at http://www.ejbiotechnology.info/content/site/docs/cta/copyri.pdf. Please send a signed scanned copy to the e-mail biotec@ucv.cl. All authors should send a copy of this document.

In order to continue with the Editorial Process, you must proceed with payment. Please follow the instructions for payment available at http://ejbiotechnology.ucv.cl/e-commerce/catalog/.

If you have any doubts, please contact Italo Costa at italo@ejbiotechnology.info.

Please send the required information no later than November 28, 2014.

Sincerely yours,

Prof Graciela Munoz
