Dear Dr. Majid,

Thank you for submitting your manuscript, "Nutritional status of breast cancer survivors one year after diagnosis: A preliminary analysis from the Malaysian Breast Cancer Survivorship Cohort (MyBCC) study," to the Journal of the Academy of Nutrition and Dietetics. I am pleased to inform you that your revised manuscript has been accepted for publication. We appreciate your hard work and attention to reviewers' comments. The Journal has a policy of offering Articles in Press, with online publication in advance of the print issue.

We will alert you when your manuscript is scheduled for publication and when you will be receiving your PDF proofs to approve. Please note, when the proofs arrive, only minor edits, such as spelling, correction of numbers or modifying existing references, will be allowed. No rewording, redrafting or further modification of text, tables, figures or graphs can be accommodated. Making major edits close to the date of publication can delay or compromise the status of your manuscript.

The Journal of the Academy of Nutrition and Dietetics is published monthly by Elsevier Inc, on behalf of the Academy of Nutrition and Dietetics. The Journal offers Articles in Press, whereby peer-reviewed papers are made available online once they have been accepted for publication and corrected at proof stage, but have not yet been published in the printed Journal. Articles in Press are indexed and fully citable due to the DOI Article Identifier, which enables the citation of an article before volume and issue numbers are allocated. Articles in Press will automatically be replaced online as soon as the final version of the article in the printed journal has been published.

For the protection of each author's work, the Journal does not allow the unauthorized pre-publication of any materials slated for publication. All articles accepted for publication are posted online in their corrected format as Articles in Press, and are subject to embargo until such date the articles are available online. The timetable for online publication is approximately 8 weeks from acceptance. Upon receipt of proofs, approximately 4 weeks after acceptance, authors may track the status of their articles at http://authors.elsevier.com/TrackPaper.html using the "Our reference" number in the proof at the top of the Author Query Form. Authors can also sign up for Article in Press alerts on the Journal's Web site at http://www.andjrnl.org/inpress. Authors wanting to coordinate press activity with their institutions should consult the contact provided in their proof communication to confirm embargo information.

Should you have any other questions, please contact Lois Ahrens at lois-ahrens@uiowa.edu. We look forward to publishing your paper and reviewing future manuscripts from you. Thank you for your interest and cooperation.

Sincerely,

Linda Snetselaar, PhD, RD
Editor-in-Chief
Journal of the Academy of Nutrition and Dietetics
