Assessing climate change mitigation proposals for Malaysia: Implications for emissions and abatement costs

Rajah Ravaj A I., Aboon Zein Al-Arin H. 1, Naza Mintz Hobib 2, Anwar Hussain Chowdhury 3, Sartha Chendasham Ramu 1, Fardous Ahmed 4, Walter Leal Filho 5

https://doi.org/10.1016/j.jclepro.2017.06.162

Highlights
- National economies are increasingly receptive to climate change mitigation policies.
- Effective prioritizing of climate change mitigation is important to reduce carbon emissions.
