Dear Rhodora-san, Elsa, Po Teen, Hong Chang,

Thank you for your kind collaboration, the paper submitted to proceedings in Philippine Journal of Natural Sciences was accepted.

Lum et al. Morphology and molecular phylogeny of the harmful raphidophyte Chattonella subsalsa isolated from Bolinao, Philippines.

Kind regards,
Mitsunori

Dear Dr. Iwataki,

I am pleased to inform you that your paper "Lum et al.: Morphology and molecular phylogeny of the harmful raphidophyte Chattonella subsalsa isolated from Bolinao, Philippines" has been accepted for publication in the Philippine Journal of Natural Sciences (Proceedings of the Second CCORE-RENSEA Joint Seminar on Coastal Ecosystems in Southeast Asia).

As for the revision of Figure 1 recommended by Reviewer A, I suppose the original figure is all right, except that the area of small square delineating the Bolinao area (which shows too wide area) does not coincide with the area of the enlarged Bolinao map (which shows much more restricted area), as also pointed by Reviewer A. Please consider about reducing the size of the smaller square and send me a revised one at your earliest convenience.

Please wait for our next contact as to further editorial corrections (e.g. review of English sentences and style) and proof reading.

Best regards,
Shuhei

Dear Dr. Iwataki,

This is to acknowledge receipt your revised manuscript, as indicated below, and response to the reviewers' comments.

Please wait for our next contact as to the result of our evaluation.

Best regards,
Shuhei

Dear Nishida-sensei,

Thank you for your arrangement of the following manuscript,  
Authors: Lum et al.  
Title: Morphology and molecular phylogeny of the harmful raphidophyte Chattonella subsalsa isolated from Bolinao, Philippines

we prepared revised manuscript, please find 7 attached files,  
- Answers to reviewer's comments (Responses),  
- Revised manuscript with revision records (PJNS_Chattonella_Bolinao8),  
- Revised manuscript (PJNS_Chattonella_Bolinao9),  
- Figs 1–4 (all revised)

Sincerely yours,  
Mitsunori Iwataki

Dear Dr. Iwataki,

The reviewers (Reviewer-A and B) have now replied with respect to your manuscript recently submitted to PJNS "Morphology and molecular phylogeny of the harmful raphidophyte Chattonella subsalsa isolated from Bolinao, Philippines" and their evaluation and comments to the MS are attached here.

<A-Evaluation (PJNS)_JS-4_Reviewer A.pdf><Eval.Form (PJNS)_JS-4_Reviewer B.pdf><PJNS_JS-4_Reviewer B comments.docx>

You will see that both reviewers recommend acceptance after minor revision.

In this connection, please answer all the points commented by both reviewers and revise the MS, and send  
(1) your answers to the comments and  
(2) the revised manuscript to me within one month (i.e. by 27 August).

Best regards,  
Shuhei
