Dear Dr MUSTAFA,

Your submission entitled "Investigation on physical factors influencing permanent gully development in Southern Gombe State, Northeast Nigeria" has been received by Arabian Journal of Geosciences

The submission id is: AJGS-D-18-03096
Please refer to this number in any future correspondence.

You will be able to check on the progress of your paper by logging on to Editorial Manager as an author. The URL is https://ajgs.editorialmanager.com/.

We have sent an e-mail to all co-authors of this submission asking them to confirm their co-authorship. You can see the status of co-authorship confirmations under "Author Status" in your author main menu. Please check with your co-authors in case somebody does not confirm within reasonable time. In case of acceptance, a paper might not be published with outstanding co-author confirmations.

Your manuscript will be given a reference number once an Editor has been assigned. Should you have any concerns, you may send an email to us by clicking the "Contact Us" link in which you may find on the upper left of the banner menu on the submission website

Thank you for submitting your work to our journal.

Kind regards,

Editorial Office
Arabian Journal of Geosciences

Now that your article will undergo the editorial and peer review process, it is the right time to think about publishing your article as open access. With open access your article will become freely available to anyone worldwide and you will easily comply with open access mandates. Springer's open access offering for this journal is called Open Choice (find more information on www.springer.com/openchoice). Once your article is accepted, you will be offered the option to publish through open access. So you might want to talk to your institution and funder now to see how payment could be organized; for an overview of available open access funding please go to www.springer.com/oafunding. Although for now you don't have to do anything, we would like to let you know about your upcoming options.

Recipients of this email are registered users within the Editorial Manager database for this journal. We will keep your information on file to use in the process of submitting, evaluating and publishing a manuscript. For more information on how we use your personal details please see our privacy policy at https://www.springernature.com/production-privacy-policy. If you no longer wish to receive messages from this journal or you have questions regarding database management, please email our publication office, stating the journal name(s) and your email address(es): PublicationOfficeSPI@springernature.com

In compliance with data protection regulations, please contact the publication office if you would like to have your personal information removed from the database.
