PREFACE AND ACKNOWLEDGEMENT ................................................................. 5

INTRODUCTION .................................................................................................... 6

Section 1: .............................................................................................................. 7

LEARNING AND TEACHING ENHANCEMENT ............................................. 7

Educating Socially Responsible Instructional Designers Using Authentic Service-Learning Approach 8

*Farrah Dina Yusop* .......................................................................................... 8

Enhancing Students’ Engagement during In-Class Learning through Implementation of Team-Based Learning (TBL) ................................................................................ 14

*Elsa Hanijjaf Meja Mohamed³**, Naguib Saleh², Sim Si Mui¹, Johari Mohd Ali³* ................................................................................................................ 14

An Analysis of Learning Needs among Students Learning Burmese, Thai and Russian in University of Malaya .............................................................................................. 27

*Larisa Nikitina³**, Ma Tin Cho Mar², Rosenun Chesof³* ................................ 27

Flipping the Learning: An Investigation into the Use of the Flipped Classroom Model in a Traditional Science Course .......................................................... 34

*Boon Chin Tan¹**, Teen Lee Pua¹* ..................................................................... 34

Enhancing Lexicon and Higher Order Thinking Skills through Vocabulary Game .......................................................... 42

*Shanina Sharatol Ahmad Shah¹°, Azmowaty Mohamad Nor¹, Afni Anida Adnan²* ......................................................................................................................... 42

Problem-based Learning (PBL) in Ethics Course Delivery for Science Undergraduates: Students’ Achievement and Attitudes ........................................... 51

*Mohd Salim Bin Mohamed³**, Siti Nurani Mohd Noor², Dharini Pathmanathan³* ......................................................................................................................... 51

Determining the Influence of Perceived Clinical Workplace Learning Environment on Learning Approaches of Undergraduate Medical Students .................................................. 64

*Vinod Pallath¹°, Selvan Segaran¹, Chan Choong Foong¹, Joong Hiong Sim¹, Wei Han Hong¹, Jamuna Vadivelu¹* .................................................................................. 64

Exploring Active Learning Approach to the Benefits of Quantity Surveying Students through Model-Building Activity ......................................................... 74

*Norhanim Zakaria²**, Umi Kalsum Zolkafli @ Zulkifly³, Imran Ariff Yahya³* ................................................................................................................................. 74

The iDEeA Project: Exploring Design Mindset and Toolset of Biomedical Engineering Undergraduates ................................................................................... 82

*Nur Azoh Hamzaid¹**, Wan Safiwani Wan Kamarul Zaman¹, Mas Sahidayana Mohktar¹, Juliana Usman², Mohd Yazed Ahmad¹* ......................................................................... 82

Action Research, Feminist Pedagogy and Blended Learning: Towards a Holistic and Practical Approach .................................................................................... 89

*Lai Suat Yan³**, Kuppusamy Singaravelloo³, Junedah Sanusi³* ..................... 89

Socioscientific Inquiry-Based Learning (SSIBL) For Early Childhood Preservice Teachers ............................................................... 101

*Hidayah Mohd Fadzil³* ....................................................................................... 101
Biomedical Science Programme: A preliminary study on the effectiveness of a self-directed model compared to traditional lecture-based teaching methods

Rozaida Poh Yuen Ying*, Suzita Mohd. Noor*, Umah Rani Kuppusamy*

Section 2: ASSESSMENT & TECHNOLOGY

CEFR-informed Group Oral Interaction Assessment: Toward Greater Quality and Reliability

Tam Shu Sim*, Zuraidah Mohd Don*, Chue Siu Kuan*

Gamifying the Computer Programming Course: An Approach to Enhance Problem Solving and Programming Skills among Undergraduate Computer Science Students

Unaizah Obaideliah†, Nabil Makarim†, Mahmoud Danaee†, Raja Jamilah Raja Yusof†, Ang Tan Fong†

Infographic Posters: Enriching Students’ Learning Experience

Vinothini Vasodavan†, Dorothy DeWitt†, Norlilah Alias†

Field Work Based Project Paper Assessment

Firuza Begham Mustafa†

Enhancing and Motivating Preservice Counselor’s Problem-Solving Skills through Learn-by-Doing Using Game-Based Learning

Azmawaty Mohamad Nor†, Shanina Sharatol Ahmad Shah†

Development of a Remotely Operated Experimental Facility for Teaching and Learning under UM E-Learning Platform

Mohd Nashrul Mohd Zubir†, Mohd Hamdi Abdul Shukor†, Nurul Fazmida Mohd Noor†, Mohd Ridha Muhamad†, A. Jannifar†, Norhafizan Ahmad†

Laboratory Instruction in Histology: Microscope or Computer?

Chia-Wei Phan†, Rosie Pamela David†, Murali Naidu†

Increasing Student Engagement through Authentic Learning Activities in MOOC Environment

Syahruz Junaini†, Johari Abdullah†, Yanti Rosmunie Bujang†, Ahmad Hadinata Fauzi†, Jonathan Sidi†

I Know How I Want to Be Assessed: Empowering Undergraduate Students through Self- and Peer-Assessment Strategies

Renuka V. Sathasivam†

Development of a Module for Collaborative Technology Pedagogy Content Knowledge (TPACK) Among Undergraduates

Dorothy DeWitt†, Norlilah Alias†, Mariani Md. Nor†

Collaboration Made Easy with the Collaborators in Action Tool: A Case Study on the Probability and Statistics Course

Vimola Balakrishnan†, Salimah Mokhtar†, Gan Chin Lay†

Identifying Factors Affecting Student’s ICT Skill

Norizan Mohd Yasin*, Ayad A. Yass†
Section 3: ........................................................................................................................................... 236

STUDENT SUPPORT .................................................................................................................................... 236

Remediation Programme for Underperforming Medical Students: A Test Drive ........................................ 237

Foong Chan Choong*, Nurul Atira Khairul Anhar Holder, Nik Nadia Nik Nazri ........................................... 237

The Application of Ta’lim, Tarbiyah and Ta’dib to Tackle Lackadaisicalness among Students .............. 245

Azizah Mainal* ........................................................................................................................................ 245

Peer Mentoring Pilot Program for Law Students: Addressing the Hidden Curriculum ............................. 254

Zalina Abdul Halim*, Simon Wood, Siti Zaharah Sulaiman ................................................................. 254

Lessons Learnt in Involving Students as Research Participants: The Pastoral Project .................... 263

Siti Rohana Mohd Thani*, Kuang Ching Hei ...................................................................................... 263

A Discovery Journey on the Design of Online Learning Programs for Adult Learners .......................... 271

Huey Zher, Ng**, Sakina Sofia Baharom ................................................................................................. 271

Integration of Simulated Teaching and Learning Approach in Enhancing Building By Laws Approval
Knowledge for Building Surveying Undergraduate Students ............................................................... 282

Raha Sulaiman*, Nur Farhana Azmi, Suzaini Mohamed Zaid ................................................................. 282

CONCLUSION.............................................................................................................................................. 291

Academic Enhancement and Leadership Development Centre (ADEC)
