Reviewer comments (if any) will appear below:

Editor-In-Chief: The galley proofs sent to the authors for checking should be an exact copy of the author's final manuscript version. Authors should not need to work to make the galleys reflect their final version. If any troubles, please contact me directly at edwardciaccio@gmail.com.

Editor-In-Chief: Please note that only changes for minor typographical errors (a few words at most) are allowed once I have accepted your manuscript, unless further approved by me. Authors are not allowed to submit another revision - they must work with the galley proofs.
Editor-In-Chief: Kindly check the typeset equations and numerical expressions carefully when you receive the galley proofs (to ensure that they were translated correctly). If there is any trouble during this process, please inform me personally (will be sent back to typesetter for a redo). I send the following directive to the typesetter:

Note to typesetter: The typeset manuscript must be a faithful reproduction of the author's final submission including all equations and numerical expressions (symbols, spacing, sub- and superscripts). If not done, it will need to be returned to you for a redo. I have instructed authors not to take this job upon themselves. Thank you in advance for your assistance.

Editor-In-Chief: Authors should double-check that all necessary statements are contained in the galley proofs, including Conflict of Interest, and Institutional Review Board or IACUC approval when needed.
