Subject:

Journal of Dairy Science - Decision on Manuscript ID JDS-14-9240.R2

11-Apr-2015

Dear Dr. Koshy Philip:

Manuscript ID: JDS-14-9240.R2

Title: Isolation and mode of action of bacteriocin BacC1 produced by non-pathogenic *Enterococcus faecium* C1

I am pleased to inform you that your manuscript has been accepted for publication in the Journal of Dairy Science. You should anticipate receiving a PDF proof of your final manuscript within approximately 3 months. If you have any questions, please contact the editorial office (shaunam@assoqh.org).

Note that a copyright form signed by all authors must be on file at the editorial office before your paper can be published. If you have not already done so, please complete the attached form and fax (217-378-4083) it to them.

The journal encourages authors to create an AudioSlides presentation with their published article. AudioSlides are brief, webinar-style presentations that are shown next to the online article on ScienceDirect. This gives authors the opportunity to summarize their research in their own words and to help readers understand what the paper is about. More information and examples are available at <http://www.elsevier.com/audioslides>. You will receive an invitation e-mail to create an AudioSlides presentation after your paper is in press.

On behalf of the editors of the Journal of Dairy Science, we look forward to your continued contributions to the Journal.

Sincerely,

Dr. John McKillip
Section Editor, Journal of Dairy Science
